

ROHIT KUMAR DUBEY

(+44) 07393109551 | dubeysmail@gmail.com | [LinkedIn](#) | Glasgow, United Kingdom

PROFESSIONAL SUMMARY

Applied AI Engineer with experience building **AI agents**, **LLM-powered systems**, and **automation workflows** using Python, APIs, and modern AI tools in production environments. Designed and deployed **RAG pipelines** and AI-driven systems improving reliability and decision-making, achieving **100% citation-backed outputs** and **33% improved forecasting accuracy** through data-driven workflows. Brings strong capability in translating business processes into **AI automation solutions**, delivering scalable systems that enhance operational efficiency, streamline workflows, and support real-world business growth.

EDUCATION

Computing Science, M.Sc. | University of Glasgow

Sep. 2023 – Jul. 2025

Coursework: Programming and Systems Development, Machine Learning and AI for Data Scientists, Deep Learning, Big Data Systems, Secured Software Engineering, Internet Technology

SKILLS

AI & Automation: AI Agents, Workflow Automation, **n8n**, LLM Integration, Prompt Engineering, Retrieval Augmented Generation (RAG), LangChain, Conversational Memory, AI-driven Decision Systems, Open Source LLMs (LLaMA), Groq, Hugging Face

Programming, Cloud & Data: **Python**, SQL, Bash, REST APIs, FastAPI, JSON, AWS, Azure, Docker, Kubernetes, CI/CD, Terraform, Git, Linux, Data Preprocessing, EDA, Feature Engineering, Power BI

EXPERIENCE

Data Analyst | Chilos Burger Ltd. | Glasgow, United Kingdom

Jun. 2024– Present

- Faced fragmented business data and unclear demand patterns, tasked with **analysing sales trends** and customer behaviour to support data driven operational and strategic decision making.
- Applied **Python**, **SQL**, and **Power BI** to build analytical workflows and dashboards, improving forecasting accuracy by **33%** and enabling faster, insight led business decisions.

Junior DevOps Engineer | BN Technology | Ghaziabad, India

Aug. 2022– Sep. 2023

- Operated in a fast paced cloud and DevOps environment, supporting **automated deployments** and scalable infrastructure across multiple client facing platforms and internal systems.
- Implemented **CI/CD pipelines**, **Terraform**, **Docker**, and **Kubernetes**, reducing deployment time by **35%** and improving system reliability across AWS and Oracle environments.

PROJECTS

EnquiryIQ: AI Powered Sales Enquiry Processor | Claude API, n8n, Gmail API, Google Sheets

Apr. 2026

- Built **end-to-end n8n workflow** integrating Claude API and Gmail API to **automatically extract** structured JSON from **customer enquiry emails**, handling both **plain text and technical drawing attachments** via Claude Vision
- Engineered **confidence scoring system** and open questions generator to triage enquiries by completeness **ERP-ready JSON schema** designed for direct webhook integration into **internal MRP platform**

AI Powered NHS Health Assistant | Python, FastAPI, Groq LLM, FAISS, Docker, Kubernetes

Feb. 2026

- Addressed NHS access and triage challenges by designing a **safety focused conversational AI** to provide symptom assessment, escalation guidance, and NHS aligned health information using **Retrieval Augmented Generation**.
- Built and deployed a production ready **LLM system** using **Groq LLaMA**, **FAISS** vector search, and **FastAPI**, containerised with **Docker** and orchestrated via **Kubernetes**, achieving low latency responses and grounded, non hallucinated outputs.

ContractIQ: RAG Based Legal Contract Analysis | Python, FastAPI, LLMs, ChromaDB, Streamlit

Jan. 2026

- Identified hallucination and trust failures in generic legal AI tools and was tasked with building a **clause grounded** contract analysis system prioritising precision over answer coverage.
- Implemented a **Retrieval Augmented Generation (RAG)** pipeline with clause aware chunking and verification, enforcing **100% citation backed responses** and automatic refusal when grounding confidence was insufficient.

CERTIFICATIONS & ACHIEVEMENTS

- Oracle Cloud Infrastructure 2025 Certified Foundations Associate (1Z0-1085-25)** | Oracle
- Microsoft Azure Fundamentals AZ - 900** | Microsoft
